

Keepsafe is a new collection of UK made no touch keyrings and tools to keep everyone that bit safer, by minimising personal contact with commonly used surfaces at work and when out and about. All items are laser cut in unique shapes from smooth white, clear or black acrylic, which is both durable and easy to sanitise effectively. All products can not only be branded in full colour, but each item can be permanently personalised with laser engraving for added safety. Get ready for employees to come back to work and help keep them safe.

KEEPSAFE KEYRINGS

You want to help protect your people when out and about and our keyrings offer a practical and stylish way to do so. Our larger tools are great for helping you keep the workplace virus free, the keyrings help in environments you cannot control.

- **KeepSafe Helping Hand** - a unique keyring design that not only looks great but provides a practical way of not touching those buttons everyone else does
- **KeepSafe Digit** - a more simple design that does what you want it to and simply pushes all the right buttons
- **KeepSafe Everywhere** - personal protection when out and about, pushing buttons, opening doors and much more, the multi purpose option

KEEPSAFE OFFICE TOOLS

Issue these tools to all your staff and you will reduce possible virus transmission in the workplace. Can be used to avoid contact with most commonly used surfaces, personalised with names for an extra level of safety and security, easy to keep clean when people wash their hands.

- **Keepsafe Office** - multi purpose, comfortable to hold for all day everyday use
- **KeepSafe Hook** - 2 styles of hook to make certain pretty much anything can be opened with one end or the other
- **KeepSafe Commute** - for city workers using public transport, a great way to hang on when a seat is not available without touching poles or hanging onto straps in areas without controlled hygiene

Need something a bit different in shape to these keyrings and tools for your workplace, or to better suit your brand or message? No problem, we make these here in the UK and for as little as 25 items we can help design and create something unique for you. Just let us know your ideas and we will happily create bespoke products to suit your needs.
